

Where was the most need?
(non civilized countries)
What are the directives?

Name: MACSUGA Date: 12/3/11 DBQ YR: 2011

Causes & Consequences of Green Rev.

What were they? (changers)
When was it good? (make \$ & food)
How was it bad? (When was it bad?)

Doc #	A	B	C	POV	Author's Name	Major Concept	Date
1				Incomplete data # is fed to UN by reporting country	UN FAO	wheat yields rise in Mexico & India	2005
2				UN Doc / Study Prediction of future not good	UN FAO	Pop ↑ & food supply in ALL World food production stays ahead of pop	2005
3				Promises to keep democracy safe from Commies	Truman 1st speech as prez.	Help free nations Stay free; eat USA will help	1949
4				won nobel prize for this study. knows truth re: crops & pop ↑	expert agricultural scientist	Green Rev is good & will help millions but pop must not ↑ but be →	1970
5				Big POV: Look @ me, I was in charge when G.R. occurred I am responsible	India's ag. minister	We were 1st. to work & successful to benefit from Green Rev.	1970
6				not an official subtle sarcasm b/c she is NOT benefitting govt. watchers	Wife of official	\$ made for Mexico is good but spend in USA ::	1970
7					UN FAO Newsletter scientist who is Indian not official	G.R. has little benefits & none for women Very bad for women G.R. is a failure	1987
8							1991
9							2004
10							2006

DBQ Organization Chart

	Document Number(s)	Explanation/Comments/Why
Thesis		
Evidence Supporting Thesis		
1 st Grouping of Docs Group A	1, 2, 3, 4	Cause → need for food (where - 1, 3, 4 → b/c not in USA or 1 st world nation)
2 nd Grouping of Docs Group B	5, 9, 6 1, 2, 3, 4	Consequence - PRO = good (6 & 9 ⇒ economic & social impacts)
3 rd Grouping of Docs Group C	4, 7 8, 9, 10	Consequence - Neg. (2: 4 w/ pop ↑ = ↑ need) (6: 9 ⇒ neg social conseq conseq.)
Point of View	Doc 1	This graph is from the POV of the nation's reporting these stats. to the UN: not wanting to make their nation look unsuccessful these stats may be false regarding total yield.
Point of View	Doc 8	The native scientist from India is educated and a published physicist: her writing about her lands show the real issues w/ the G.R.
Point of View	Doc 6	Ms Dula is the wife of a Mexican official who criticizes the spending habits of the wealthy Mexican farmer's wives b/c she could be jealous of their wealth & freedom to shop in USA. Also she could be angry b/c the \$ is not going back into the Mexican economy.
Additional Documents	A doc from the POV of a farmer is needed because they were the ones experiencing the new methods 1 st hand; could tell what effects were good or bad.	
Additional Documents	The POV from a merchant who sells crops grown by farmers would provide info on the changes in price of food; how it affected their customers; had much of a surplus (b/c) had at the end of the season.	
Additional Documents	An outside country, maybe from sub-Saharan Africa, who would receive UN supplies of excess food on how the increase in shipments helps their poor nation.	
Documents Used	1-2-3-4-5-6-7-8-9-10-11-12 uneducated woman
